It's cold outside in the middle of the winter  
And my brain's in the fridge  
(Would you know what shape I'm in)  
Point things in the better I'm lucky  
If I even give in to the sin  
(Would you know what shape I'm in)

And it's all been luck until now  
Caught in the race of up to down

Photography mixed in the monogamy  
Keepin' my world happenin'  
(Would you know what shape I'm in)  
I know that I'm better when I know  
That you are better and I'll hold you again  
(Would you know what shape I'm in)

And its all been luck until now  
Caught in the race of up to down  
And it's all been luck until now  
I only hope that you're still 'round me now

And it's gonna rage  
It's gonna stay with you always  
Every second counts on you  
To prove you're off the ground

It's cold outside in the middle of the winter  
And my brains in the fridge  
Point things in the better I'm lucky  
If I even give in to the sin

And its all been luck until now  
Its all been luck until now  
And its all been luck until now  
Caught in the race of up to down now

And its all been luck until now  
Caught in the race of up to down  
And it's all been luck until now  
I only hope that you're still 'round me  
Forever 'round me now
