Good -vs- Evil, Evil -vs- Good  
Choose your Side now  
'Cause that's all you could  
People say it's right  
But other's say it's wrong,  
The decisions up to you.  
Forced to kill, is your command  
Destruction on another,  
Is what he Want's,  
Forced by the beast to believe  
That it's right, It's the final command  
Evil Mind of the Dreadful  
Destruction, Annihilation of the Vengeful  
Command of the Beast  
War Starts now, the worlds in his hands  
Power of the beast, people starts to run  
Escape now prisoners of war  
The holocaust is here  
Nuclear blast, people turn to ash,  
Face Melting down, Painful death,  
The final Hours here  
Take your last breath, showing no mercy  
Evil Mind of the Dreadful  
Destruction, Annihilation of the Vengeful  
Command of the Beast  
The Holocaust is here, with power he attacked  
He brought back hell on earth, civilians left to die  
People dying Children cryond, Nations gone  
Shootion guns, helpless people fall  
Command of the beast  
Now under power, Nations growing faster  
Crushing our creation, Total Annihilation  
There's no solution, too much pollution  
Victims cry in pain.  
Terrors now raised, taking your life,  
Under attack there's no turning back  
The never ending swarm, a million more destroyed.  
Evil Mind of the Dreadful  
Destruction, Annihilation of the Vengeful  
Command of the Beast
