Mankind as a species is vile  
atrocious minds plague the earth  
history teaches of putrid beings  
live for power  
die for power!  
bringing earth inevitable doom  
taking more than it can consume  
celebrations in disgusting gluttony  
chop away on a cold dead carcass  
Spite, greed, power, lust  
Lies, hate, deceive, and distrust  
Spite, greed, power, lust  
Fight, kill, devour, unjust

no different than those that  
they judge they tell you right from wrong  
animal instincts to kill and conquer  
no sympathy for those who suffer  
twisted ways from the day they are born  
no remorse to those they have scorned  
its the cold, sick, and deranged  
these horrible ways will never change

Earths disease!  
They deceive!  
Deranged minds!  
Endangered kind!

Sickness of humanity  
Plague upon a pure existence

Made a cruel design  
populations will decune  
nothing seems to save our mankind  
nightmares just unfold  
reality is so cold

sick and horrid stories we are told  
Sickness of humanity
