Why don't you come to my house  
Why don't you drag me right out  
Past all the shit that i said i'm saying  
Why don't you cut up my mouth  
And i don't care what you use  
Just don't ask me to choose  
I forced a field to allow you  
That's not so easy to do

I said I said what I said I want you to help me  
Surrender rend it it's yours  
Out in the open  
We're wide open  
Surrender rend it it's yours  
(he says something right here i cant make it  
out....HELP!)

Surrender rend it it's yours  
out in the open  
we're wide open  
Surrender rend it it's yours

Night light comes into my room  
Some shade of bruise-colored blue  
Moves through my mind like a chemical  
Imbalance on schedule  
My tasting face to the floor  
Passive abject i'm sure  
I lick my lips when I need it  
Don't want to lick them no more  
My love song went wrong
