

Fugazi "Walken's Syndrome"

Visit "[Walken's Syndrome](#)" on MotoLyrics.com

Fragile stem
Asleep at the stoplight again
Red dressed in red drenched in red spreading red
ever red
Fragile stem
Veering for control again
Change lanes explain how strain defers the impact of
speed
On on past gone gone gone past on
Fragile stem
Made your own road again

Scars crash and glass made
You laugh you'd show it off to your friends
Fragile stem lay down your arms and then
Steer into the headlights like the dead light of the last
sun you'll see
Steering into headlights and your gone
