It's 4 o'clock in the morning
Somehow I still can't sleep
I've been tossing and turning, but I'm slowly learning
The questions are running deep
Never had this feeling before
Is it love, I just don't know anymore
But every time I see your face
My heart beats at a faster pace

And I don't understand it
Don't know the right words to say
When we meet face to face
I have to look away (I have to look away)

'Cause baby, I've a crush on you, you know it's true
And I can't get you out of my mind
Baby I've a crush on you, you feel it too
I can see it in the way that you smile
Love may come, love may go
If we don't try it, we'll never know
Deep inside I hope that it's true
I've got a crush on you

Sometimes I see you around town
The way the wind blows in your hair
You look so refined, I'm out of my mind
But you don't even know that I'm there
Just want to run up and hold you
And tell you what's going on in my head
And you walk on by, you give me the eye
And I choose silence instead

And I don't understand it
Don't know the right words to say
When we meet face to face
I have to look away (I have to look away)

'Cause baby, I've a crush on you, you know it's true
And I can't get you out of my mind
Baby I've a crush on you, you feel it too
I can see it in the way that you smile
Love may come, love may go

If we don't try it, we'll never know
Deep inside I hope that it's true
I've got a crush on you

I've got a crush on you
Babe, I've got a crush on you
