She calls me from the cold
Just when I was low, a feeling short of stable
And all that she intends
And all she keeps inside, isn't on the label

She says she's ashamed
Can she take me for awhile?
Can I be a friend, we'll forget the past
But maybe I'm not able
And I break at the bend

We're here and now, but will we ever be again
Cause I have found
All that shimmers in this world is sure to fade
Away again

She dreams a champagne dream
Strawberry surprise, pink linen on white paper
Lavender and cream
Fields of butterflies, reality escapes her

She says that love is for fools who fall behind
And I'm somewhere in between
I never really know a killer from a savior
Til I break at the bend

We're here and now, but will we ever be again
Cause I have found
All that shimmers in this world is sure to fade
Away again

It's too far away for me to hold
Too far away;
It's too far away for me to hold
Too far away;

Yeah;
It's too far away for me to hold
Too far away;
It's too far away for me to hold
Too far away;
It's too far away for me to hold

Too far away!
It's too far away for me to hold
Too far away!

Guess, I'll let it go
