This is my answer to everything  
This is my answer to everything  
None are made before their time

And now you know this could never be justified  
Now you know I could never be satisfied  
Now you know you can't love me if I can hide  
Now you know that this little child is terrified

This is my place to hide from everything  
This is my place to hide from everything  
None are made before their time

And now you know this could never be justified  
Now you know I could never be satisfied  
Now you know you can't love me if I can hide

Now you know that this little child is terrified

It's glorified  
It's sanctified, in you, for you  
It's purified, I walk inside  
The truth, the truth

Now you know this could never be justified  
Now you know I could never be satisfied  
Now you know you can't love me if I can hide  
Now you know that this little child is terrified

Now you know  
(What I am, what I know, what I say)  
Now you know  
(What I am, what I know, what I say)  
Now you know  
(What I am, what I know, what I say)  
Now you know  
(What I am, what I know)
