Beautiful colour
maybe the best
tell the reason
for your concern
Your very indecision
is showing your faults
maybe you're happy
or a little bit false...

When you were about to
turn me into fire
you became the picture of my life
Just before an action
it's better you should know
what your life can't give you anymore...
Wonderful body
maybe the best
let me be curious
who will be the next?
Winter redresses
what summer permits
how many secrets
we had to forgive...

When you were about to
turn me into fire
you became the picture of my life
Just before an action
it's better you should know
what your life can't give you anymore...
