What you feel inside is what you get,  
whether it's good or bad  
If you feel pride you must be doing right,  
and should be glad  
Directions know, directions show you  
where you oughta be  
Follow your heart, don't fall apart,  
and that's when you will see  
Chorus:  
Creator way, don't look away,  
don't look away ya hey  
Creator way, don't look away,  
don't look away ya hey  
Creator way, don't look away,  
don't look away ya hey  
Creator way, don't look away,  
don't look away ya hey  
Let's not forget, what we regret,  
let's change the bad to good  
The spirit grows, tradition knows,  
how we've misunderstood  
The money's spoken for too long,  
we've gotta kill the beast  
Follow our hearts, not fall apart,  
and that's when we will see.
