All the clouds have covered my once blue sky,
And I can't stand in all this rain that is falling on me.
So I pray for shelter in your name,
'Cause I need you here when all this rain falls down on
me.
When all the rain falls down on me (I need you to know)
When all the rain falls down on me (I want you to know)
When all the rain falls down on me I need you to be
there.
And I can't swim in the flood from all this rain,
So I pray for guidance through the storm,
Because you are my arms, my eyes, my hands,
'Cause I need you now when all this rain falls down on
me.
