"Hey Little Girl"

Visit "[Hey Little Girl](#)" on MotoLyrics.com

You don't know how I feel
So let me tell you that my love is real
I can't stand it no more
This lonely day when you walked out the door
Now is the time for me to pray
I hope you come back come back one day
Chorus:
Hey little girl
Let me rock your world
I don't know what to do without you
Hey little girl can I rock your world
I just wanna know if you're there
I hope you'll come back to me
I'm so deep in love girl can't you see
I remember your face
All the love we had and all these beautiful days
Now is the time for me to pray
I hope you come back come back one day
Chorus
Hey little girl can I rock your world
C'mon taste my world 'cause I know my love is true
I wanna be with you no matter what you do
'cause my love is so deep so deep so deep for you
Chorus
