I love you, you know that I do
What can I do to find the truth?
You know I love you, forever and ever
We'll be together and I'll do it all just for you

From the first time I saw you you had my heart
I didn't know how to talk to you, I didn't know how to start
Two weeks later I saw you again
My heart was beating faster it was adrenaline

Your eyes, your smile and your beautiful face
You caught me in the act and I thought I lost the race
Let me tell you that I'm shivering inside
I wanna hold your hand, I wanna hold you tight

Please be with me, my love so deep
What can I do to be with you?

I love you, you know that I do
What can I do to find the truth?
You know I love you, forever and ever
We'll be together and I'll do it all just for you

Sitting in the room waiting by my phone
Drivin' on the tour bus, can't wait to come home
Miles and miles between the two of us
I need you girl or my heart will burst

I know, it's hard for you when I'm far away
But every single hour and every single day
I think of you in a special way
I love you girl in my heart you'll stay

Please be with me, my love so deep
What can I do to be with you?

I love you, you know that I do
What can I do to find the truth?
You know I love you, forever and ever
We'll be together and I'll do it all

I love you, you know that I do
What can I do to find the truth?
You know I love you, forever and ever
We'll be together and I'll do it all

I love you, you know that I do
What can I do to find the truth?
I love you, forever and ever
We'll be together and I'll do it all just for you

This goes out to
All the lovers outside
If you once find the right person
Never let her go away
