We got the crazy crew
You think you comin' we say
"Na na na"
We got the block locked up

We got the crazy crew
You think you comin' we say
"Na na na"
We got the block locked up

We got the crazy crew
You think you comin' we say
"Na na na"
We got the block locked up

We got the crazy crew
You think you comin' we say
"Na na na"
We got the block locked up

The foes that oppose me by proxy
They try to get foxy, they try to rock me
They say, they got the 40 cal glock
With the 30 round clip and they losin' their damn grip

Well, I came back from hell so goddamn fit
I'll bust your lip and make you strip
You can play them games but don't play 'em in my park
I'll spill a wild bill, before you get out you town car

Rantin' and ravin', claimin' you're armed
I'll do the hit myself and then eat a chicken parm
Mackin' like bumpy, the business is boomin'
I'll chop your ass up like, I was Jimmy Coonan

The westy, honey don't test me
Ooh, [Incomprehensible] ate 5 blotters
And things are gettin' kinda wacked

If you can't live the lie, let it die
And if you can't live a life full of strife
Just say oops and jump through hoops

And get to the end of the line

If you can't live the lie, let it die
And if you can't live a life full of strife
Just say oops and jump through hoops
And get to the end of the line

We got the crazy crew
You think you comin' we say
"Na na na"
We got the block locked up

We got the crazy crew
You think you comin' we say
"Na na na"
We got the block locked up

I got bear hug for my brothers
And I got no love for the others
So c'mon kids, you ain't built for bids
You'll get jacked in the ass like a sucker

"Mucho Dinero", the man with the hat said
He changed his mind once the crack in his head bled
Movin' and shakin' the brittle illusion
Referrin', concurrin' and workin' out solutions

We got the crazy crew
You think you comin' we say
"Na na na"
We got the block locked up

We got the crazy crew
You think you comin' we say
"Na na na"
We got the block locked up

We got the crazy crew
You think you comin' we say
"Na na na"
We got the block locked up

We got the crazy crew
You think you coming we say
"Na na na"

If you can't live the lie, let it die
And if you can't live a life full of strife
Just say oops and jump through hoops
And get to the end of the line

If you can't live the lie, let it die
And if you can't live a life full of strife
Just say oops and jump through hoops
And get to the end of the line

Know your man, know his game
Don't be ashamed from where you came
If you ask me
I'd rather have money than fame

We got the crazy crew
You think you comin' we say
"Na na na"
We got the block locked up

We got the crazy crew
You think you comin' we say
"Na na na"
We got the block locked up

We got the crazy crew
You think you comin' we say
"Na na na"
We got the block locked up

We got the crazy crew
You think you comin' we say
"Na na na"
We got the block locked up

We got the crazy crew
You think you comin' we say
"Na na na"
We got the block locked up

We got the crazy crew
You think you comin' we say
"Na na na"
We got the block locked up

We got the crazy crew
You think you comin' we say
"Na na na"
We got the block locked up

We got the crazy crew
You think you comin' we say
"Na na na"
"Na na na"
