So this is life  
are you satisfied  
you sacrificed your soul for pride  
you life on the edge  
just waiting to die sometimes its like your not alive

its kinda like your not there  
blank expressions  
empty stares  
all is gone, that was once there  
i cant belive this it's not fair

\*chorus\*  
hey i think i would like to stop  
the world and rest a little  
hey i feel like i'd like to start things over

stop the world

\*chorus\*

i've been dancing w/ the devil  
the dark music and the melodies are simple  
how could i ever forget the way she moves-in tempo

stop the world  
stop the world  
stop the world and rest a little
