Verse one:

How many times do I have to tell ya  
That I can't be with someone I can't trust  
I don't wanna fuss no more  
Sweet and sour, every hour  
You run around tis' fell down  
Got me walkin around with a frown

Bridge:

Enough is enough, I can't take this anymore  
Enough is enough, I'm about to lose control  
Why you had to push me this far  
Enoguh is enough, enough is enough, enough is enough  
You're gonna make me

Chous:

You're gonna make me Pull a Lefteye(hmmm)  
Out all night again  
When I ask where you been it's the same  
answer(uhhhh)  
I call no answer, that's not the way to make her happy  
Or I gotta leave you alone before

You're gonna make me You're gonna make me) Pull a  
Lefteye shoes in the tub  
Tearin' up all your stuff  
Now I got my match struck  
Now I don't care if I burn this mother  
All the way  
That's how I feel right about now  
That's what you get for tossing me around

Verse two:

See I would never let you drive me crazy  
I try so hard to make it work, make it work I'm about to  
lose my mind  
Good with bad I'm so mad  
Things with went wrong, thing went wrong  
Now i'm singin this song, now I'm singing this song

Bridge:

Enough is enough, I can't take this anymore  
Enough is enough, now I'm about to lose control

Why you had to push me this far  
How much can one take before a day break !Lord!
