"My Generation"

Visit "[My Generation](#)" on MotoLyrics.com

We are the voice of a generation
We stand together to smash this nation
Boots & braces, we're back on the streets
We're feeling strong when the kids all meet

I'm in love with my generation
I'm in love and I guess it's true
'Cos I've got nothing else to do

This is the place where we belong
We stand together proud & strong
Leather jackets and safety pins
We know that we'll always win

I'm in love with my generation
I'm in love and I guess it's true
'Cos I've got nothing else to do

Why do we always get the blame
We're getting hot, hot as a flame
We're getting sick of your lies
Without you the world would be fine

I'm in love with my generation
I'm in love and I guess it's true
'Cos I've got nothing else to do

People say we're dead and gone
But together we stand proud and strong
Boots & braces back on the streets
We're feeling strong when the kids all meet

I'm in love with my generation
I'm in love and I guess it's true
'Cos I've got nothing else to do
