People are behind me  
I don't know what they want  
They're trying to get me  
I keep running around  
Feels like they are chasing me  
I've got nothing to hide  
No one to explain me now  
What is this all about

THERE'S NO WAY OUT

I Could'nt get away, no  
I finally got caught  
I think they want my money  
But they should have seen I'm broke  
I really want to go now  
They don't seem to be pleased  
Dawn I must get outta here  
When will I be released

THERE'S NO WAY OUT

People are behind me  
I don't know what they want  
People are behind me  
I keep running around  
People are behind me  
I see no place to hide  
People are behind me  
I don't know what they want
