"What A Time For Love"

Visit "[What A Time For Love](#)" on [MotoLyrics.com](#)

Along the way
When we thought things were alright
The whole world turned around
Now we've got to hold on

What a time for love
To show us to the light
What a time for love
Love makes it alright

We all want to live our lives
And no one wants war
We're all too different about how we live

Where dying to life

What a time for love
To show us to the light
What a time for love
Love makes it alright

What a time for love
To show us to the light
What a time for love
Love makes it alright

What a time for love
To show us to the light
What a time for love
Love makes it alright
