People are behind me
I don't know what they want
They're trying to get me
I keep running around
Feels like they are chasing me
I've got nothing to hide
No one to explain me now
what is this all about

THERE'S NO WAY OUT

I Could'nt get away, no
I finally got caught
I think they want my money
but they should have seen I'm broke
I really want to go now
they don't seem to be pleased
dawn I must get outta here

When will I be released

THERE'S NO WAY OUT

People are behind me
i don't know what they want
People are behind me
i keep running around
People are behind me
I see no place to hide
People are behind me
i don't know what they want
