promise you ... all you want
I'm telling you ... all you want
I'm asking for ... all you've got
I steal your soul in front of you
believe the lies ... all you want
come pay the price ... all you want
give your life ... all you've got
I steal your soul in front of you

[Chorus:]

... give you something you can drink
welcome to Murder Town
...give you something you can smoke
welcome to Murder Town
...give you a place where you can stay
so you will waste your life away

Can you believe? ... all you want

In emptiness ... all you want
I'm blinding you ... all you've got
I steal your soul in front of you
Be a moron ... all you want
Deaf and numb ... all you want
A shadow shell ... all you've got
I steal your soul in front of you

[Chorus]
