From the lands beyond the forest
A dark sinister ruler rose
From the ashes of chaos
His hordes moved across the lands
Like a black shroud eclipsing the sun

Apocalyptic winds carried the scent
Of the dead from the battlefields
Impaled enemies fell
Onto the order of the dragon
As the hordes of the Vlad the Impaler
Ride to victory

Order of the Dragon
Unleash your chaos
Order of the Dragon
Unleash your chaos

Apocalyptic winds carried the scent
Of the dead from the battlefields
Impaled enemies fell
Onto the order of the dragon
As the hordes of the Vlad the Impaler
Ride to victory
