Shine through me Satan
Yes, live now through this tool of yours
Live through me, O seditious star,
And like a thousand suns shall I spread thy light

Like a thousand plagues
A thousand wars
I bind for thee the hope of man
Bound on earth, bound in heaven
Burn in me angel

Yes, burn the self to kill the human within
And fetter now these lustful limbs
Fetter the flesh, choke the sin

Laudamus te
Adoramus te

I condemn all in me that is not of thee
And now I am the light that is above all
Holy poison, holy doom

Reborn for injection in the veins of man
A mirror of fear to turn life against life
Set me free in the plan of God
Original serpent, hear me... see me... Enslave and use
me
I breathe only to take the form thou wish

Quoniam tu solus sanctus
Tu solus dominus

And like a child frightened to obedience shall I do thy
holy will
Until eternity ends thereafter... Amen

Shine through me Satan
Yes, live now through this tool of yours
Dwell through me, O seditious star,
And like a thousand suns shall I spread thy light

Like a thousand plagues

A thousand wars
A thousand hells and a thousand storms

Glorificamus te
Oremus

Let us give praise
Extol and worship
Gratias agimus tibi propter magnam gloriam tuam
Holy poison, holy doom

Reborn for injection in the womb of wombs
A spirit of chaos, God against God
Now set me free in the plan of life
The plan of God, holy doom

A legion of spasms in the limbs of the bearer
God against God against life against all
Holy poison, holy doom...
