Covered in dust the empire rests  
Upon the throne of stone the Emperor is seated  
The desecrated wastelands on which  
The ancient warriors fought  
Their grotesque battles are his  
The foregathering of the songs of night  
Completed with the howl of wolves  
Down in the woods of eternal dark

The freezing winds bring forth the horrifying cries  
Of those who fought here  
The howling wolves cry out their frightening songs  
Over the forgotten fields  
Under the blackened sky the once so  
Mighty warriors resurrect  
In the shadow of moonlight and armies gather

Marching to the valleys with pride  
Serving the Emperor of dark  
Disciples of the dark war gather  
For it is now, for us the songs of the night

Furious we slay all that we see  
Life shall be no more  
Complete powers of the dark ones

Now the end for eternity

On this darkened night  
The passion shines in our eyes  
We know that the time has come  
For us, the sons of the night  
At the end of time  
Under the darkened sky  
All life will end  
Covered with dust of Armageddon

The foregathering of the nocturnal ones  
It's time to be as one

Mighty knights of Armageddon  
At least they have come

The moon and stars will vanish  
Behind the apocalyptic dust  
As the cosmos burns, ends all life  
As the cosmos burns, all time ends

The burning winds bring forth  
The horrifying cries of those who die now  
The howling wolves cry out their frightening songs  
Over the forgotten fields  
Under the blackened sky the mighty warriors dominate  
In the shadows of moonlight their grotesque battles  
are won
