Set your arms free, leave your corpse  
Departure for the ultimate trip  
Climb high, seize the speed  
Never get back! Always making for the cold

Fix the raw energy of the earth

Set destination to nowhere, nowhen  
Outside of space, outside of time, inside of you  
Ought to leave your eyes now  
No need further

Mental metaperception  
Unlinking of soul anchors  
Complete dehumanization  
Irresistible attraction for the void  
Sickness behind the mask of gold
