If you don't like the effect  
Don't produce the cause  
(x3)  
You say you don't like where you're at (yeah)  
You can make a change  
If you accept the blame  
Stay in control of your reactions, yes  
Will determine the effect  
Of any situation  
You have the power to negate  
Any ?-causing feeling  
That prohibits you to think  
A situation is just that  
It has no special power  
To do you harm  
It's your reactions that count  
If you don't like the effect  
Don't produce the cause  
(x2)  
You say you don't like what your country's about (yeah)  
Ain't you deep  
In your semi-first class seat  
You picket this and protest that  
And eat yourself fat  
Ain't you deep  
In your semi-first class seat  
If you don't like the effect  
Don't produce the cause  
(x4)  
You say you don't like what your country's about (yeah)  
Ain't you deep  
In your semi-first class seat  
You picket this and protest that  
And eat yourself fat  
Ain't you deep  
In your semi-first class seat  
La la la-la, la la la la  
(x2)
