Was it an act of evolution or a mistake more divine?  
The creation of mankind a million years ago  
Too few of them can be convinced about the truth of  
life  
The majority of men "fÃ¢â¬" still fighting for their  
own ends

Chorus girls in uniform like fallen angels by my side  
Celebrating the modern age  
The devil wins this fight  
In the end we are condemned to go down with our race  
Too much destroyed already  
We have reached the end of days

We have reached the final chapter  
We are almost at the end  
The time we have remaining is better wisely spent
