Back to life, back to reality
Back to life, back to reality

However do you want me
However do you need me
However do you want me (However)
However do you need me (Do you need me now)

However do you want me
However do you need me
However do you want me
However do you need me

Back to life, back to the present time
Back from a fantasy, yes
Tell me now, take the initiative
Gon' leave it in your hands until you're ready

However do you want me
However do you need me (How)
However do you want me (All that I have you-you-you-you-you-you)
However do you need me

However do you want me
However do you need me (However)
However do you want me
However do you need me

However do you need me
However do you need me
However do you need me
However do you need me

I live at the top of the block
No more room for trouble or fuss
Need a change, a positive change look
Look it's me writing on the wall

However do you want me
However do you need me

However do you want me
However do you need me

However do you want me
However do you need me
However do you want me
However do you need me

Back to life, back to the day we had
Let's end this foolish game
Hear me out don't let me waste away
Make up your mind so I know where I stand

However do you want me
However do you need me (How)
However do you want me
However do you need me

However do you want me
However do you need me (However)
However do you want me
However do you need me

However do you want me
However do you need me (How)
However do you want me
However do you need me

However do you want me
However do you need me (How)
However do you want me
However do you need me
