[Verse 1: Trials]

Ahhhh what you wanna say, I probably did
And if I didn't say it already it's probably shit
See I'm sick of rappers saying they're fresher than
whatever
When my shit fresher than Fran Drescher in maid dress
up
I'm nice from the neck up, butt-neck jam
Skin colour keg brown and my stomach gat round
The Track packed out like Sandra Sully's rack out
When they heard Obese bought the gimps back out
FU-NK-OA-RS too stank for the sweet smell of success
If you see me in the street, one fucking shoe on
Don't mean I lost one - mean I got a new one
Using a coupon, don't you know
I'm still broke but they know why I'm like 'leave me
alone'
I'ma self-sabotaging expert marksmen
Son of a gun shooting my mouth off to seargents
One for the drinks that I had last night
Two for the drinks that I have tonight
Three for the drinks that I have tomorrow
Four for the money that I have to borrow

[Verse 2: Hons]

I've been dope since two thou when I burst on the scene
like an appendix

Still drinking like an Irishman on St Patty reckless

K Federline pennyless

Might be seeing Seth Green or the Sherminators taking
on apprentices

You know, the set redder than a break light

Certified Funkoar, so every verse I lace tighter

than a plus-sized mole in snug-fit jeans

Ain't shit gonna change 'til I conquer the scene cos

I got plans for world domination like the Mongrels

Hons now the king of the concrete jungle

We smash it, hit up the hit like Babe Ruth

Still working 7 years so I guess I paid my dues

Still running with that same crew, Funkoars

You may have heard of us if you like that rap shit from

A.U

[Verse 3: Sesta]

Ay, 25 summers into this mother fucker

Still staggering stuck-ups, still labelled a fuck-up

Ill-rated and such

Who rates greater than us? *croak croak*

NO-ONE'S RATED GREATER THAN US

You can line up for a date with a nut
But be nice and speak nice and lye safe for the nuts
Serenate but no getting engaged with the nuts
Play your cards right and you might take 'em straight to
the guts

"Sesta tone down your lyrics

My kids feel it's a little to explicit for them to listen"

Listen. I'ma God-fearing Christian

I'm even giving praise when I'm pissing -- "JESUS
CHRIST!"

It burns, cos I drink and I scream and I curse
like I'm cursed with a birth defect
And infects me like I'm injected directly
to the vein with scotch, then I'd be a Pepsi

"This how hip hop is supposed to sound "

"Sposed, sposed, sposed to sound "

"This how hip hop is supposed to sound "

"Sposed, sposed, sposed to sound "

sposed to sound " {reapeats 'til fade}
