I'll try to believe it when you tell me you love me
I'll try to believe that I'm your only man
You say there's no reason that I should doubt you
You haven't been loving me like I know you can
Well don't talk no? when I've been true with your lust
But I just see through your empty eyes

CHORUS

Baby I want you
Darling I need you
Baby I love you
Can't you love me too
Baby I want you
Darling I need you
Baby I love you
Can't you love me too

I don't believe what everybody is saying
Even though I know that it's true
You're trying to tell me you haven't been playing
The only one you're fooling's got to be you
Because I've tried and tried to find truth in your lies
But I just see through your empty eyes

(Chorus)

You got me loving you but I don't know why
I pour out my heart for you and you make me cry
I don't understand it, but I've got to hand it to you

(Chorus x2)
