friends don't want to stay up in my head  
put me down for one more day in bed  
i can't hear you whisper  
but your voice is in my head  
looking back i see the bottle in your hands  
next time i won't know to stop  
i'll fail again  
everyday is the same  
i am burned again  
you smoke yourself away and i'll be gone  
time makes my days long  
get off my back  
lies they come my way  
obscene i drop my head  
you go home-----go home  
whispers hold the spiders in my hair  
flying dreams...i'm yelling all the time
