Do you know the place, where you find yourself floating  
Worlds in between, your day and your dreams, reality a  
bliss

Do you know the place, where the unknown is so clear  
You're the one in control, don't need it all, once you're  
so pure

Where you are, one who sees, surrounded by your true  
real dreams

What you want, current needs, right now got to sail  
your wings

Fly my dream, fly my dream, make it me, make it me,  
your dragon wings

Fly my dream, fly my dream, make it me, make it me,  
your dragon wings

Do you know the place, where you find yourself floating  
Worlds in between, your day and your dreams, reality a  
bliss

Do you know the place, where the unknown is so clear  
You're the one in control, don't need it all, once you're  
so pure

Ostrich shells, turtle wings, these are things you find in  
dreams

Up and down, all around, right now got to soar them  
clouds

Fly my dream, fly my dream, make it me, make it me,  
your dragon wings

Fly my dream, fly my dream, make it me, make it me,  
your dragon wings

Is your heaven my destiny meant for me

I hope you are correct, that the judges met

For I plea now not guilty

Fly my dream, fly my dream, make it me, make it me,  
your dragon wings

Fly my dream, fly my dream, make it me, make it me,  
your dragon wings
