Let life, let it be  
Live life, live it free  
Let life, let it be  
Live life, live it free

Resurrection of yourself  
That's the only way to wealth  
I have seen the men that need  
I have seen their eyes that bleed  
I have traveled near and far  
Seen you never win a war  
Once they tell you how to think  
Your thoughts all fade and shrink

Let life, let it be  
Live life, live it free  
Let life, let it be  
Live life, live it free

Like a river it does flow  
Planets move to let you know  
With this place we are one  
Water, wind, the earth and sun  
Find your path and set your groove  
It's up to you now what you prove  
If you hit it fast you hit it strong  
If a life is a what you want

Let life, let it be  
Live life, live it free  
Let life, let it be  
Live life, live it free
