Bloodstains spoiled, rotting in the dark  
Children carefree playing in the park  
Color blackish, represents the night  
Sunshine brightish, offering the light

Your actions got me comin for you, got me comin for  
you  
Your actions got me comin for you, got me comin for  
you

Barbwire rusted, holding in the pain  
Knowledge churning, ideas flow like rain  
Dying, crying, old men writhe and cringe  
Brightly smiling, mom and dad's love binge

Your actions got me comin for you, got me comin for  
you  
Your actions got me comin for you, got me comin for  
you

Wilted fading, flower of the past  
Detroit muscle, stead fast meant to last  
Wicked lying, country out of hand  
Conscious living, time to take a stand

Hold out your hands
