Here's another song about  
Just another song about  
So Cal

Yeah, it's true, the sun shines bright  
And yeah, it's true, people party all night  
True as well, the grass is always greener  
Just don't forget your sunscreen

Here's another song about  
Just another song about  
So Cal

Break it on down with a funky vibe  
We hail from the land of palms & pines  
You can hit the throttle, you can hit the wave  
Do what you want, try anything  
Just make sure that you cover your ass  
Cause there are demons out there and snakes in the  
grass  
Like a king to his throne, like a dog to his bone  
On these streets paved of gold, we're about to roam

Here's another song about  
Just another song about  
So Cal

Yeah, it's true, the girls are hot  
And yeah, it's true, we smoke the best pot  
True as well, life can get real hard  
In spite of what you've seen on the post card

Here's another song about  
Just another song about  
So Cal

Here's another song about  
Just another song about  
So Cal
