"So Surreal"

Up, down, back around twice
Thinkin of things that make me feel nice
What you know and what you feel
All I know is it's not for real
Careless and carefree, that's our way
That's how we're spendin now all of our days
Worried and stressed out, just not us
Happily jamming, minus the fuss

So surreal, don't you feel
Empty thoughts, sold and bought

Colors blending into my mind
Acid trip flash back just in time
Let me show myself around
Help myself out, find the town
Where I grew as a little boy
So fierce, so honest, so full of joy
Do I jump and run or just relax
Step up, step back, take in the facts

So surreal, don't you feel
Empty thoughts, sold and bought

Have you lost your mind today
Do you feel you're not a slave
Can't have courage without fear
It's up to you which way you steer
You're thrown to life without a cause
Never given no time to pause
Makin the most of all your days
Don't be scared by the preacher's flames

So surreal, don't you feel
Empty thoughts, sold and bought
