"Take It Back"

Visit "[Take It Back](#)" on MotoLyrics.com

At first, the property of a king
Then came some men with hopes and dreams
Problems at hand were way too much
To just stand by, not give a fuck
They came together, they made a pact
To stand and fight, to TAKE, IT, BACK

I want America, taking back America
I want America, can you hear me
I want America, taking back America
I want America, are you with me, yeah

Please Mr. Bush, won't you listen to us
We don't like you, you've lost our trust
Your evil plans are based on lies
Ruin our minds and destroy young lives
These greedy ways, and senseless attacks
Forced us to, TAKE, IT, BACK

I want America, taking back America
I want America, can you hear me
I want America, taking back America
I want America, are you with me, yeah

Fore fathers ways of revolution
Need to come back, the time has come
Country is going out of control
Powers at hand, heads shall roll
We've been inspired by the past
Hear us scream TAKE, IT, BACK

I want America, taking back America
I want America, can you hear me
I want America, taking back America
I want America, are you with me, yeah
