daddy won't like this discussion  
think he might find it too much  
when he sees what you want to be

something you won't tell your sister  
what she don't know she won't miss  
when they see what you want to be  
see what you could have been

baby won't live with your mama  
still she does better than some  
when they see what you want to be

you can trade tongues with your brother  
it's better than losing your lover  
when they see what you want to be  
see what you could have been

no way to please her  
she goes where you lead her  
some days you tease her  
but she's counting them upside down

janey leaves you out of pocket  
and she's no good for your confidence

you can do better than this one  
having your palm read in russian  
will not see what you want to see  
see what you could've been

no way to leave her  
she goes where you lead her  
some days you tease her  
but she's counting them upside down

daddy won't like this decision  
you're gonna be causing some friction  
all of your records are broken  
it doesn't say much for your confidante

no way to please her

she goes where you lead her  
some days you tease her  
no way to please her  
no way to please her  
she goes where you lead her  
some days you tease her  
but she's counting them upside down
