Is this the way  
That you let me know  
Is this the sign  
That you want to show  
It's not too far  
To let you go  
If i'm to know  
It's just the way that we fall down like dominoes  
Can you decide  
What you want to see?  
When you believe  
Only bits of me  
It's not too hard to be needing me  
So easily  
It's just the way that we fall down like dominoes  
That we fall down like dominoes  
That we fall down like dominoes  
And if you fall out  
I will haul you in

I will rescue you... your heroine  
I will try to make you mine  
If it's easier this time  
And if i'm to blame  
Will you let me know  
I found a way  
To let it go  
It's not the same  
When you let it show  
A touch too slow  
It's just the way that we fall down like dominoes  
That we fall down like dominoes  
That we fall down like dominoes  
When we fall down like dominoes  
When we fall down like dominoes  
When we fall down like dominoes
