Why do you walk away from me
What is it you don't want to see?
Ill hold you down and make you see
These things you do to little me
Burn like thalidomide I will bleed you dry
And make all your little evils mine
Youre so holy
You will not be here till the end

Youre not the one I will call friend
Id like to drive a nail through
This part of you that lets you do
These things to little me
I will bleed you dry
And make all your little evils mine
Youre so holy
Holy holy holy holy
Youre so holy
