"Enslaved By Chaos"

Annihilation awakened, disease unpacked
Forwarned a thousand times, of your feeble future
gaping black
Hellbent for blood of the innocent, souls we violate
Corrupting waves of hell ascending, Satan seals your
fate.

Enslaved by Chaos! Your shackled!
Made to suffer and suffer again.
No Name! Retaliation in vain!
Your shackled! No consideration for your pain!
No name! Made to suffer and suffer again!

Hell unbound the onslaught persistent, prevail
forevermore
Writh in black as darklords whisper, "Wreck them to the
core!"
Stroke the fear, ignite the flesh!
Strive for the rising of a darker sun, adore all the you
detest!

Hear the calls of arising demons speak.
They surface in Hordes!
Engorge in the fruits of sufferings, Joys!
Overshadowed under might!

Souls sold, to the keepers of obliteration
Kings of nowhere, triumphant mass!
Scars cover the heavens, trinitys mocked at their
confessions
Mourn the failures of your gods!

Without sin, absorb the chaos ever-bloating
Undo the trappings of the fading king!
Overpowered, our force unmatched
Our victors wield, infernal thrash!
