All night games left me rescue trained  
I know the way, I know the way to get out and get to you  
All my weight shifts from hip to leg  
I know the way, I know the way to get out and get to you

And I know where we go from here  
But we cannot stay forever  
When we're cut to the bone  
Are we leaving alone  
Yeah I know we are both strong willed  
But we can't resist forever  
If we won't take control  
Can we only let go

All this way just to test my strength  
I know the same, I know the same way to go to get to  
you  
Far way to fall, I know how it feels to fall without you  
Here in your arms, I know how it feels to be without you  
How it feels to live without you  
How it feels to have to let you go

And I know where we go from here  
But we cannot stay forever  
When we're cut to the bone  
Are we leaving alone  
Yeah I know we are both strong willed  
But we can't resist forever  
If we won't take control  
Can we only let go

So very deep in a winless war  
We've forgot what we're fighting for  
Only moments of truce  
Just to tend to our wounds  
I am braced for a long last night  
And a turn of nasty weather  
When we're cut to the bone  
Are we leaving alone

I could but I can't lose you

I could but I can't lose you now  
I could but I can't lose you  
I could but I can't lose you now
