What goes up must come down
here in this town
of fools and philosophers
some truth here is built on dreams unfilled
here in this town
of concrete and fake
she said it's no big thing
not having any money
as long as i sing for her
life's sweet as honey
there only one thing she said she misses
and that is
3000 Kisses

She said it's not a good thing
to feel sedated
when unpaid bills cut you like a knife
just lean on me and let your dreams travel
and baby you can sleep while i drive

she said it's not a big thing
when life's not funny
as long as i laugh with her
the world seems sunny
there is only one thing she said she misses
and that is
3000 Kisses

she said it's not a big thing
not having any money
as long as life's sweet as honey
there is only one thing she said she misses
and that is
3000 Kisses
