Lights on Lights out A message going out No  
acknowledgement of receipt We walk We talk A heart  
painted with chalk On a rainy night in your street  
It's getting cold under your window And  
I'm still waiting for a sign Oh yeah

Place a candle in your window

Breathe in Breathe out My warm breath forms a cloud  
That shall tell you how i miss you Sometimes it hurts  
Sometimes it heals My heart ,because nothing feels  
Half as good as if i kiss you And while the rain falls  
down on my head I think about every word that you  
said,

If there's a place for me in your heart  
Set a light and let it start
