My flight-ticket says Tampa  
coming over was the message That I sent her 12  
hour horror flight Still in a good temper till I saw the  
immigration queue of Atlanta

Can I see your passport please Do you bring in any  
disease criminal activities If I think it over in my ass  
Theres a H- Bomb

I won't rape nuns  
I don't sell guns  
I just came to see my baby  
I'm not Slim shady  
Don't wanna fuck the first lady  
I just came to see my baby

Oops that was the wrong topic I mentioned Suddenly  
they paid me more attention i had to open my suitcase  
senseless rat race Staring at this pigface Got ready for  
the worst case

I like to shake down gents This is a US planet But  
I'm from mother Europe And thats not the way  
we've planned it

And I won't bomb towers I bring love and  
flowers Cause I came to see my baby  
I won't kill your sons  
Though they're republican cunts  
I just came to see my baby

( BEND OVER HERE COMES THE GLOVE )

first came the glove followed by laughter then  
someone offered me the cigarette after they showed  
me a sign that said no smoking then came the glove  
again not joking
