96 degrees the sun is burning  
Ra is smiling when the whip comes down  
The caravan of stones creeps through the desert  
The Valley of Kings is filled with sound

Hurry up, come on pull boys  
Come on, never stop  
Hurry up, the pharaoh's dying

The pyramid grows higher and higher  
The treasure chamber is already filled  
The pharaoh is ill no time to waste  
The architects pray before they get killed

Hurry up, come on pull boys  
Come on, never stop  
Hurry up the pharaohs dying

Don't slow down  
Tons of stones for the honor of the crown  
Don't slow down  
Pull that stone in the name of the crown

86 degrees in the city of Rome  
The pope decides he needs a new dome  
So suffer boys in the name of God  
And empty your pockets for his new home  
For his new dome

Hurry up, come on pull boys  
Come on, never stop  
Hurry up the pharaohs dying

Don't slow down  
Tons of stones for the honor of the crown  
Don't slow down  
Pull that stone in the name of the crown
