will you follow me
to a place under the sea
we drowned of love
we drowned under water

it will never happen
as long as you believe in me
i'm so afraid
but if you're with me i will follow

they say one through love can hear
the troubles and dells we feel
and whatever we dream can be real

will you follow me down to atlantis
where the dream of mankind is kept
where you give all your love to defend this
and wake up all the good in you
i know it never slept
so atlantis is in you

see the deepest blue
and feel what's happening in you
it says listen to your heart
and you unloose what's true

instead of making let's remember
fortune loves the brain
what shines in you will shine in me
it's a beautiful energy

they say one through love can hear

the troubles and dells we feel
and whatever we dream can be real

will you follow me down to atlantis
where the dream of mankind is kept
where you give all your love to defend this
and wake up all the good in you
i know it never slept
i know it never slept

so atlantis is in you

cause our dreams are real and our kisses free
like the kiss of atlantis
atlantis is in you

cause our dreams are real and our kisses free
like the kiss of atlantis
cause atlantis is in you

will you follow me down to atlantis
where the dream of mankind is kept
where you give all your love to defend this
and wake up all the good in you
i know it never slept
i know it never slept
so atlantis is in you
