We've got time to wait, but we wait until it's too late.
We always move in seconds in a world of hours and days.
We've got bones and blood, but is this all that we've got?
I thought there was a brain, but maybe I just thought in vain
And this is not the time to wonder
And this is not the time to cry
And this is not the time to sleep verified
And this is not the time to die.
Realities and dreams. Reality is not what it seems.
It's not the way we want it. It's just the way it's gotta be.
We've got love and hate, but we can't estimate
What's the right solution to kill the illusion of this world?
And this is not the time to wonder
And this is not the time to cry
And this is not the time to sleep verified
And this is not the time to die.

And this is not the time to wonder,
'cause this is just the time to feel.
So don't worry 'bout the meaning,
Don't worry 'bout the world.
It's a question of how to see it clear.
That's the time, that's the time?
And this is not the time to wonder
And this is not the time to cry
And this is not the time to sleep verified
And this is not the time to die.
And this is not the time to wonder,
'cause this is just the time to feel.
So don't worry 'bout the meaning, don't worry 'bout the world.
It's a question of how to see it clear.
And this is not the time to wonder
And this is not the time to cry
And this is not the time to sleep verified
And this is not the time to die.
That's the time, that's the time?
