[1st Part]

Since the first steps
I've ever taken
I decided never to delay-o
I need perfection I need affection
I'll shoot the beats from the hits if that's okay-o
From the mixer and to the fixer
We dine the freaks and the fuckers on the stairway
And in the cafe 9 in the morning
We celebrate with the suckers on the subway
Aaaahhhhh

[Chorus]

I know something needs to go
I know something you should know
I know something needs to go
I know something you should know-atah

[2nd Part]

My head is burning
My stomache's turning
The streets are heaving
Look at all the people
You found a sad side
I found a good side
We on the outside lookiyipiyayo
It's not the first time
God know the last time
We have a good time singing yipiyayo
Aaaahhh

[Chorus]X2
