YES! They made ya to the bitter pill they gave ya. Just
your style to bring them. Nobody you know can see ya.

Get on the right track
Get on the right track
Get on the right track
Get on the right track. Now, now.

We made ya. Made ya just so we could break ya. It's so
sad to see to see ya finding enemies to feed ya.

Get on the right track
Get on the right track
Get on the right track
Get on the right track. Now, now.

Killer, killer soul. [x8]

Yes! Believe ya. Dressed as soon as we believe ya. Yes!
We'll beat ya. Be until the last big eat ya[?].

Get on the right track
Get on the right track
Get on the right track
Get on the right track. Now, now.

Do you know we can be sad?

Killer, killer soul [x8]

chest. It's hard I know!

Killer, killer soul [x8]
